PROJECTS

Huffman-Coding

Link - <https://github.com/coders-i/Huffman-Coding>

Description - This project is very useful to decompress any text file and this is the basics of encryption and decryption also. In the Huffman-Coding Project I used various Data Structures to Compress and Decompress the file.

Hangman-Game

Link - <https://github.com/coders-i/Hangman-Game>

Description - This Project is used to learn new words in a very efficient and playful manner.

Password_generator

Link - https://github.com/coders-i/Password_generator

Description - This is a python program to generate a strong password. This takes multiple inputs of how many characters, digit, Symbol you want and then generates a password.
